

# SAFETY MANAGEMENT SYSTEM

AirTera<sup>SM</sup>'s Safety Management System replaces manual, disconnected safety tools with one intuitive platform that centralizes flight risk, reporting, audits, and emergency preparedness while delivering clear visibility, faster response, and inspection-ready compliance.

**AirTera<sup>SM</sup> Helps our Operators Become FAA Part 5 SMS compliance** (effective May 28, 2027)

## What Makes AirTera<sup>SM</sup> Different

- 1. AI-powered hazard identification and risk assessments** embedded in daily operations
- 2. Intuitive, role-based workflows** built for crews, safety managers, and leadership
- 3. Integrated audits, corrective actions, and Emergency Response Planning** within a single SMS platform
- 4. Inspection-ready by design** with audit trails, version control, and documentation safeguards
- 5. Continuously updated, unified platform** that reduces tool sprawl and operational risk

**Saves 60 - 90 minutes** per safety protocol

**Saves \$100,000** annually in operational costs

**Prevents 1 - 2** safety incidents per year

**2,000+** trusted aviation partners

"We didn't just build our ERP for internal use; we built it to solve real problems for charter operations like us. Now, by partnering with AirTera<sup>SM</sup>, we're taking that proven foundation and turning it into a platform that can benefit the entire industry. Their innovation, speed, and user focus make them the perfect team to help us elevate and scale what we started."

**— Andy Priester, Chairman, George J. Priester Aviation**

"What I love about AirTera<sup>SM</sup>'s SMS platform is how incredibly streamlined the risk assessments are. I can complete the entire process while walking out to the aircraft. When you're working with moment's-notice launches like we do, this efficiency is absolutely critical."

**— Ryan Mortensen, Chief Pilot, MindWinder Aviation**

# Comprehensive Capabilities for Safety Professionals

## Flight Risk Management

AirTera<sup>SM</sup>'s FRAT provides automated risk scoring with go/no-go flags and mitigation guidance, supported by integrated NOTAMs, weather, route, and runway data.

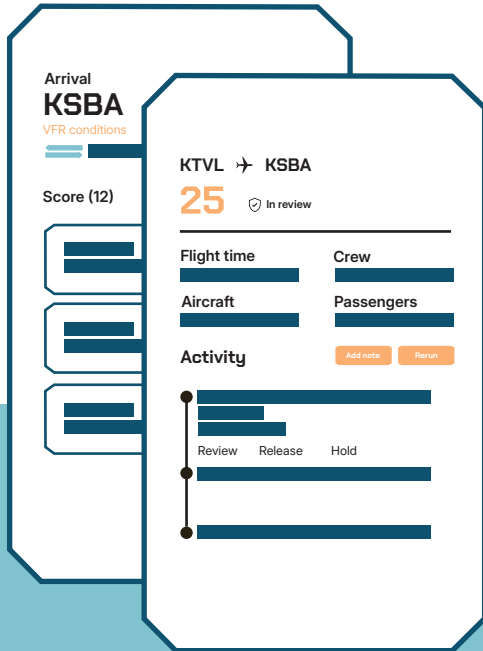

## Safety Reporting & Communication

Editable SMS manuals and safety policies are paired with inspection-ready reporting, complete audit trails, and built-in version control.

## Compliance & Documentation

Anonymous safety reporting with automated alerts is combined with read and acknowledgement tracking for notices and safety bulletins.

## Emergency Response Planning (ERP) Add-On

ERP workflows are embedded directly into SMS, with defined roles, digital checklists, task tracking, and audit-ready records that replace static manuals.

## AI-Powered Audits & Platform Improvements

AI-powered internal and external audits with streamlined workflows, lifecycle tracking, and a refined interface for clearer oversight and reporting.

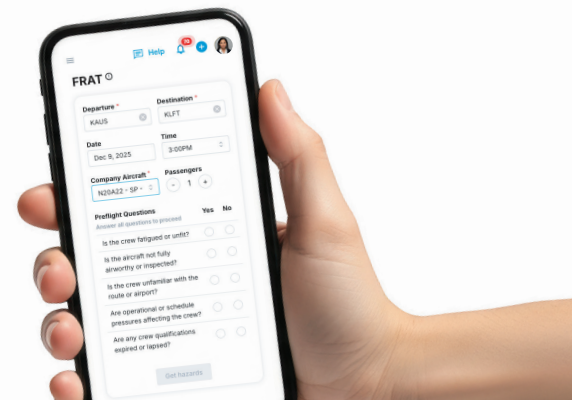

## Integrations

**Data-Driven. AI-Powered. Next-Gen Aviation Safety.**

**Request a Demo Today**

See why so many operators are choosing AirTera<sup>SM</sup> SMS.

## About AirTera

AirTera<sup>SM</sup> combines security, safety, and compliance into a single modern, user-friendly platform that equips airside, airport, and ground operations with tools to operate efficiently and effectively. With deep industry knowledge and over 25 years of experience, AirTera<sup>SM</sup> provides the guidance and technology needed to meet TSA, FAA, and DOT compliance—earning the trust of our clients as a reliable partner.
